

# ONE SEVEN® ADVANCED TRAINING

## PURPOSE OF THE TRAINING

The Advanced Training consists of a train-the-trainer program for existing One Seven® users, who want their One Seven® instructors to have more knowledge because of occurring situations in their territory. Knowledge that can be transferred into their own Fire Brigade or organisation afterwards.

## CONTENT

Besides a short theoretical part this training is mainly focussed on practising various "hot" scenarios, such as a cellar or attic fire, a garage fire, but for instance also a (under) ventilated house fire or liquid fire. The precise content will be determined together.

## AUDIENCE

Certified One Seven® instructors.

## MINIMUM REQUIREMENTS

Besides the fact that the fire brigade or organisation should have one or more One Seven® systems, the participants should be on their payroll as fire fighter and must have a BA-certificate. Besides that the participants should have a valid Basic Training certificate as well as at least one 1 year of proven experience in using One Seven®.

## DURATION

The One Seven® Advanced Training lasts 2 days.

## LOCATION

Together the location where the training shall be held will be determined. Preferably this will in the vicinity of the participants, but if requested this can also be somewhere else in the world. Provided of course that the various parts of the practice program can be trained at the proposed location.

## CERTIFICATION

Participants receive a certificate after successfully fulfilling the training according to the One Seven® Master Instructor and after filling in a questionnaire. Besides that the participants will be registered in the One Seven® Instructors register.

## CONTESTANTS

Up to a maximum of 10 contestants

## FEE

Price upon request

## ADDITIONAL INFORMATION
